

Greener Golf – 2025 Nature Recovery Pilot Project

UPDATE

Working With

**Leicestershire
& Rutland
Wildlife Trust**

Greener Golf – 2025 Nature Recovery Pilot Project

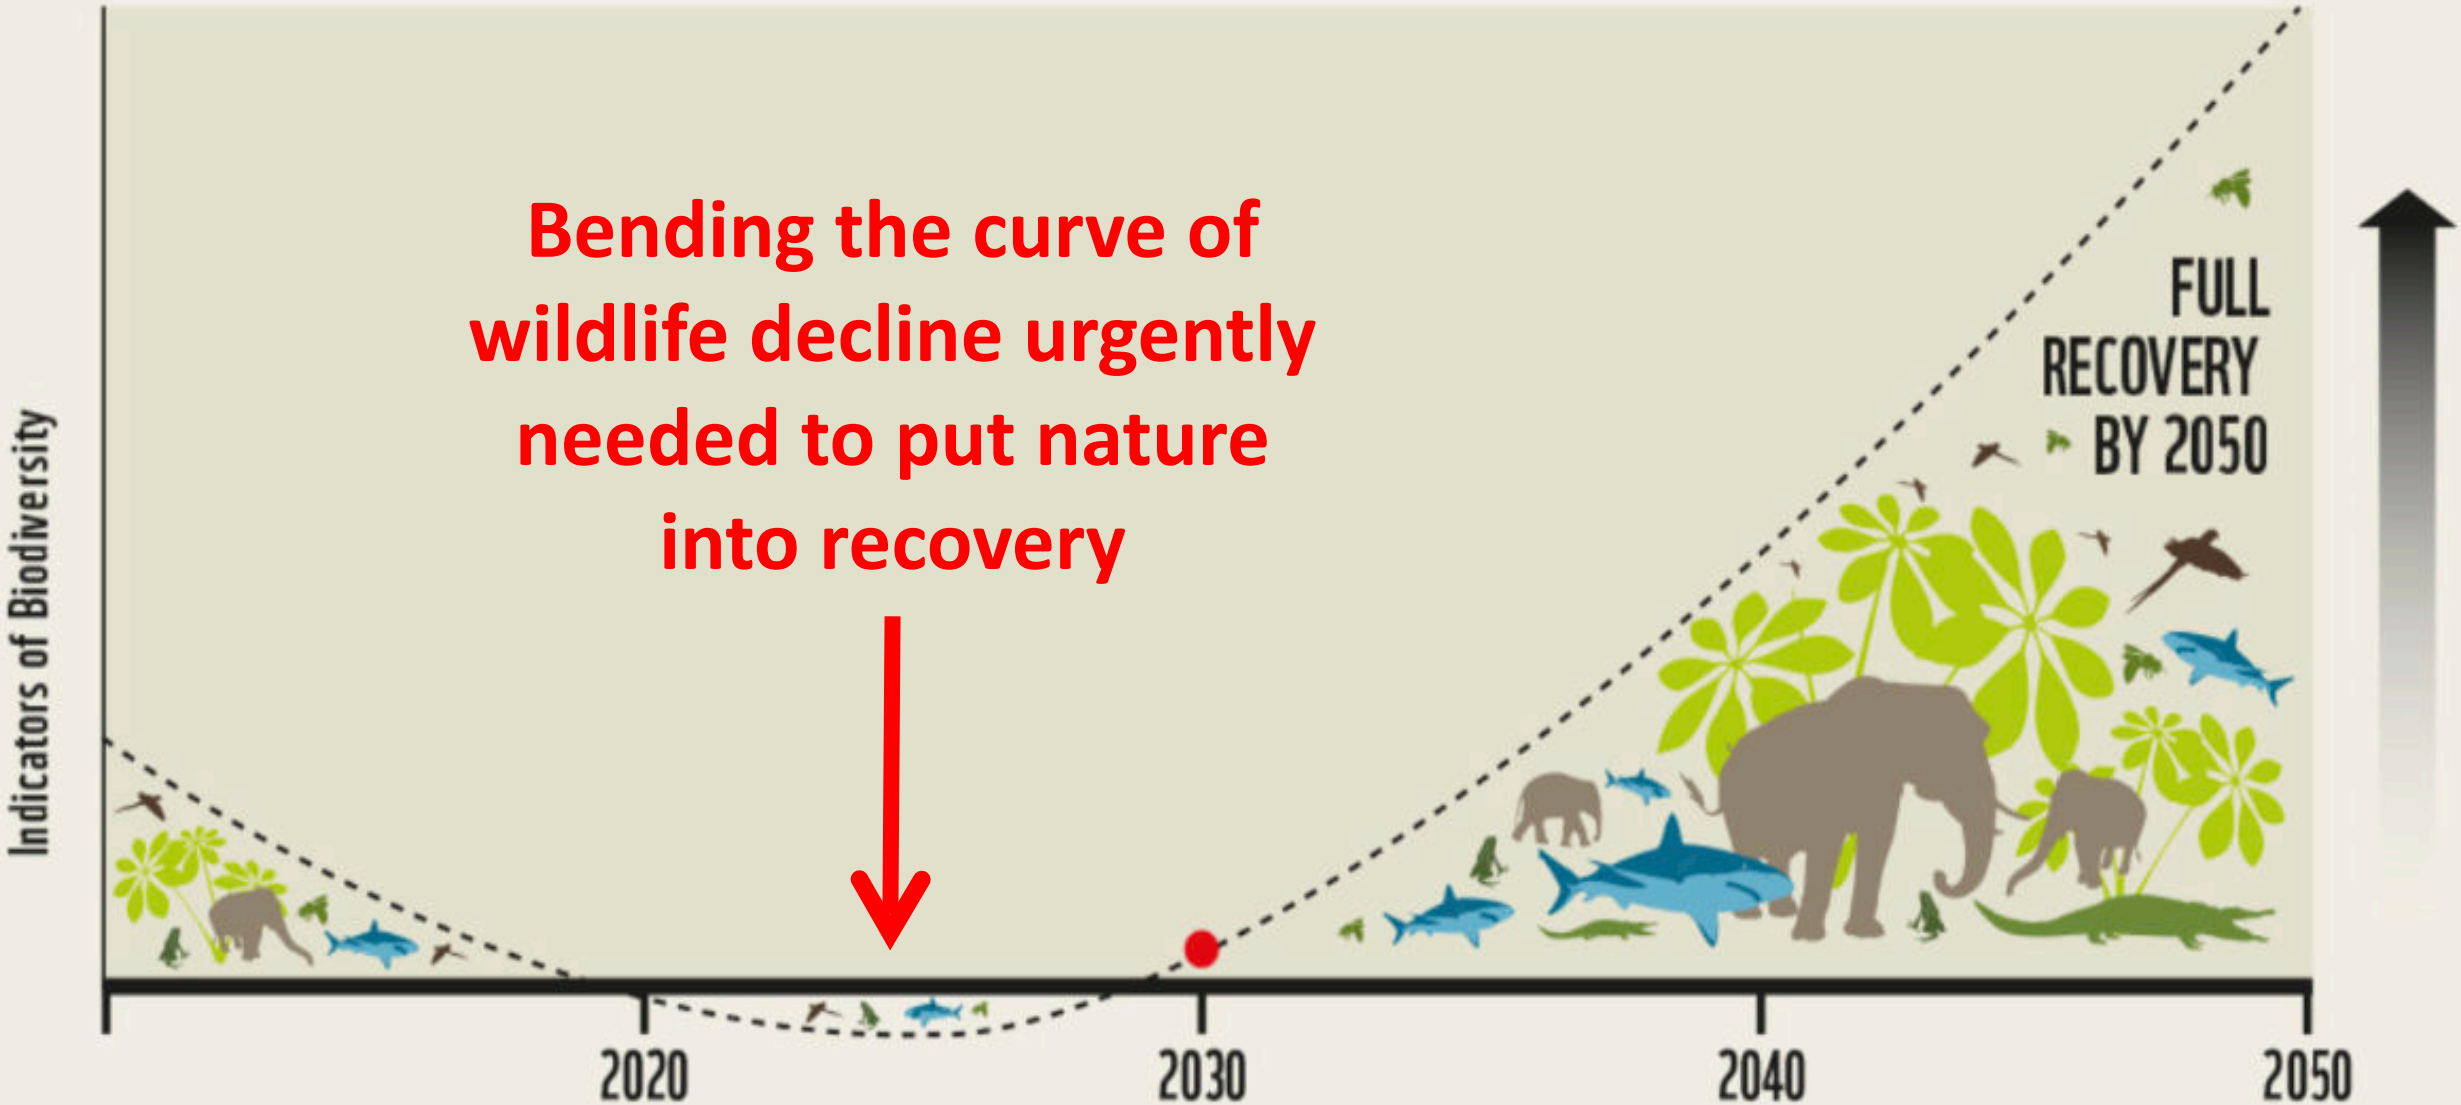

Context:

- GGN Nature Recovery Project development – circa 2 years in the making
- Proposals refined over 2024, with contributions from individual courses **£500**
- For each course project will undertake/support:
 - Ecological surveys
 - Opportunity Mapping with recommendations
 - Ongoing support, provision of expert advice
 - Monitoring of conservation actions taken on courses
 - Develop funding bid for project continuation 2026 onwards
 - Management of project communications, newsletters, customised information for each course
 - Provide bespoke training to service needs
 - Promote the project, within courses and wider public

Why is the project needed?

Nature Positive by 2030

signed-up**

**Cira 11 clubs not yet
to signed up**

**It's not too late to
sign up!**

Greener Golf – 2025 Nature Recovery Pilot Project

Timeline for key deliverables:

Spring 2025

- **Project Starts in April** - dedicated project officer in post, initial contact/introductions made, visits planned, existing ecological information assessed. Project Steering Group established. Press release/launch event etc.

Summer 2025

- **Ecological surveys undertaken** - regular tailored support/advice given, any follow-up visits, provision of training to service needs, regular updates given, content for newsletters etc.

Autumn 2025

- **Nature recovery opportunity mapping** - mapping produced and presented to courses, with simple reporting

Winter 2025/26

- **Development of funding bid for continuation at scale** –identifying key themes and wider shared needs, approaching funding bodies, establishing ongoing affiliation between LRWT/ GGN. Spring 2026 - Pilot project ends.
